Dear Mr. Oberti:

It was nice meeting with you in Davos and having the opportunity to learn more about the impressive Jumbo Glacier Project. I was pleased to note that you have focussed on a beautiful part of our province, and that your plans call for a year round high-class resort. I hope that you will be able to proceed on this project and that, one day, we may see this international venture realized.

May I wish you good luck with the further formal assessment and review of your project.

Sincerely,

A handwritten signature in cursive script that reads "Mike Harcourt".
